INDEX

A PRIORI
The a priori in inductive metaphysics. W. Marcus. 167-174.
ANTHROPOLOGY
Science of man. A. Portmann. 83-100.
Significance of the body in a Thomistic anthropology. N. Luyten. 175-193.
BERNAYS, P.
Objectivist and positivist trends in modern theoretical physics. 70-73.
BHATTACHARYA, Kalidas (232)
The concept of self in Buddhism. 216-223.
BISER, Eugen
Martin Buber. 100-114.
BODY. See Human Body
BOLLNOW, Otto Friedrich
The objectivity of the human sciences and the nature of truth. 39-52.
BUBER, Martin
Phenomenology of encounter. F. J. Smith. 194-208.
Martin Buber. E. Biser. 100-114.
BUDDHISM
The concept of self in Buddhism. K. Bhattacharya. 216-223.
CATURELLI, Alberto
Dialectic of being and manifestation of existence. 258-278.
CHRISTIANITY and Philosophy
Ancient cosmos, modern natural science, and Christianity. W. Weymann-Weyhe. 124-133.
COMMUNICATION
Phenomenology and encounter. F. J. Smith. 194-208.
COSMOLOGY
Ancient cosmos, modern natural science, and Christianity. W. Weymann-Weyhe. 124-133.
DEMSKE, James M.
Heidegger's quadrate and revelation of being. 245-257.
DEMYTHOLOGIZING
The sacred and desacralization in contemporary thought. L. Flam. 209-215.
DE WAELHENS, Alphonse
The philosophical position of Merleau-Ponty. 134-149.
DIALECTIC
Schelling's romantic dialectic. L. Flam. 298-308.
DIALOGUE
Martin Buber. E. Biser. 100-114.
DUCHÈNE, Henri (232)
Human relations at the group level. 224-232.
ENCOUNTER
Phenomenology of encounter. F. J. Smith. 194-208.
EVOLUTION
Science of man. A. Portmann. 83-100.
EXISTENTIALISM
Heidegger's quadrate and revelation of being. J. M. Demske. 245-257.
FLAM, Léopold (232)
Sacred and desacralization in contemporary thought. 209-215.
Schelling's romantic dialectic. 298-308.
GOD
The problem of God in the philosophy of Merleau-Ponty. R. Jolivet. 150-164.
GOD — Existence
Dialectic of being and manifestation of existence. A. Caturelli. 258-278.
GROUP DYNAMICS
Human relations at the group level. H. Duchène. 224-232.
GRUNDER, Karlfried
Heidegger's Critique of science in its historical background. K. Grunder. 15-32.
GUSDORF, Georges
Project for interdisciplinary research. 309-323.
HEIDEGGER, Martin, 1889-
Heidegger's critique of science in its historical background. K. Grunder. 15-32.
Heidegger's quadrate and revelation of being. J. M. Demske. 245-257.
Objectivity of the human sciences and the nature of truth. O. F. Bollnow. 39-52.
HUMAN BODY
The significance of the body in a Thomistic anthropology. N. Luyten. 175-193.
HUMAN relations
Human relations at the group level. H. Duchène. 224-232.
IDEALISM
Share of idealism in contemporary physics. M. A. Tonnelat. 53-69.
INDUCTION
The a priori in inductive metaphysics. W. Marcus. 167-174.
JOLIVET, Régis
The problem of God in the philosophy of Merleau-Ponty. 150-164.
KNOWLEDGE, Theory of
Project for interdisciplinary research. G. Gusdorf. 309-323.
LOTZ, J. B.
Person and ontology. 279-297.

SCIENCE — Methodology

New realistic trends in the interpretation of modern theoretical physics. V. Tonini. 62-69.

Objectivist and positivist trends in modern theoretical physics. P. Bernays. 70-73.

Objectivity of the human sciences and the nature of truth. O. F. Bollnow. 39-52.

SCIENCE — Philosophy

Communicable contents of the conventional bases for the natural laws. H. Schleichert. 33-38.

SCIENCE and Philosophy

Ancient cosmos, modern natural science, and Christianity. W. Weymann-Weyhe. 124-133.

Heidegger's critique of science in its historical background. K. Grunder. 15-32.

Science and religion. M. Polanyi, 4-14.

SELF

The concept of self in Buddhism. K. Bhattacharya. 216-223.

SMITH, F. J.

Phenomenology of encounter. 194-208.

TECHNOLOGY

The sacred and desacralization in contemporary thought. L. Flam. 209-215.

TONNINI, V.

New realistic trends in the interpretation of modern theoretical physics. 62-69.

TONNELAT, M. A.

The share of idealism in contemporary physics. 53-69.

TRUTH

Objectivity of the human sciences and the nature of truth. O. F. Bollnow. 39-52.

WEYMANN-WEYHE, Walter

Ancient cosmos, modern natural science and Christianity. 124-133.

PHILOSOPHY TODAY

SPRING 1963

Science and Religion — Michael Polanyi

Heidegger's Critique of Science — Karlfried Grunder

The Communicable Content of the Conventional Bases for the Natural Laws — Hubert Schleichert

The Objectivity of the Human Sciences and the Nature of Truth — Otto Friedrich Bollnow

The Share of Idealism in Contemporary Physics — M. A. Tonnelat

New Realistic Trends in the Interpretation of Modern Theoretical Physics — V. Tonini

Objectivist and Positivist Trends in Modern Theoretical Physics — P. Bernays

The Epistemological Conflict between Einstein and Bohr — L. Rosenfeld

SUMMER 1963

Science of Man — Adolphe Portmann

Martin Buber — Eugen Biser

Reflection on the Philosophic Life — Punya Sloka Ray

Ancient Cosmos, Modern Natural Science and Religion — Walter Weymann-Weyhe

The Philosophical Position of Merleau-Ponty — Alphonse De Waelhens

The Problem of God in the Philosophy of Merleau-Ponty — Régis Jolivet

FALL 1963

The A Priori in Inductive Metaphysics — Wolgang Marcus

The Significance of the Body in a Thomistic Anthropology — Norbert Luyten

Phenomenology of Encounter — F. J. Smith

The Sacred and Desacralization in Contemporary Thought — Léopold Flam

The Concept of Self in Buddhism — Kalidas Bhattacharya

Human Relations at the Group Level — Henri Duchène

WINTER 1963

Traditional Reason and Modern Reason — Francis H. Parker

Heidegger's Quadrate and Revelation of Being — James M. Demske

Dialectic of Being and Manifestation of Existence — Alberto Caturelli

Person and Ontology — J. B. Lotz

Schelling's Romantic Dialectic — Léopold Flam

Project for Interdisciplinary Research — Georges Gusdorf

PHILOSOPHY TODAY

SPRING 1962

Phenomenological Concept of Intentionality — Alphonse De Waelhens

The Eidetic Reduction — Jules Bednarski

Toward a Philosophic Notion of Matter — Norbert A. Luyten

Death and Immortality — Josef Pieper

Value Judgments, Justifications and Argumentation — Ch. Perelman

Karl Jaspers and Indian Philosophy — M. K. Malhotra

Categories — Donald Walhout

SUMMER 1962

Aristotle and the Problem of Metaphysics — Pierre Aubenque

The Phenomenology of Religious Experience — Romano Guardini

The Psychology of Religious Experience — Jean Guitton

The Philosophy of Religious Experience — Johannes Lotz

Some Recent Developments in Philosophical Theology — David Freeman

An Essay in Protestant Philosophy — Gabriel Widmer

Notes Toward a Theology of Existence — Thomas L. Thompson

The Problem of Christian Philosophy — E. A. Ruch

FALL 1962

Approach to Metaphysics — Josef De Vries

Philosophy in Modern Islam — Richard J. McCarthy

Contemporary Concepts in Science and Philosophy

The Unaccountable Element in Science — Michael Polanyi

Recurrent Structures and Teleology — Leon J. Goldstein

Portmann's Dialogue with Philosophy — Kurt Werner Peukert

Truth and Science — Karl Jaspers

The Timeliness of Teilhard de Chardin — Jean Daniélou

WINTER 1962

Morality according to St. Thomas and Depth Psychology — Louis B. Geiger

Tacit Knowing — Michael Polanyi

Pluralistic Aspect of Indian Philosophy — Charles A. Moore

Blondel and our Times — Informations catholiques internationales

Philosophy of the Converted and of Conversion — André Hayen

Metaphysics of Charity — Stanislas Breton

"There was a time when a philosopher had to write books, or at least one thick book, if he wished to obtain a hearing for what was then called his system. This age is of shorter breath. Today many philosophers are content to pursue their education in public by means of papers they insert in learned journals."

Gustav Bergman • Metaphysics of Logical Positivism, Preface.
